

2020 Great Lakes and BU Summer Camp Guidelines

Our plan is guided by the following

1. Illinois is currently in Phase 3, which allows gatherings of up to 10 people.
2. Illinois Phase 3 also allows up to 10 students per classroom to return to daycare.
3. The CDC has concluded: For teenagers, COVID-19 is much less of a risk than the seasonal flu.
4. The CDC has recently stated: "The virus spreads easily between people. The virus does not spread easily in other ways to humans, such as from surfaces, objects, or animals."
5. We urge CAUTION & COMMON SENSE!
6. Stay up to date with information from the CDC at <https://www.cdc.gov/coronavirus/2019-ncov/covid-data/covidview/index.html>
7. Illinois will be moving into Phase 4 on Friday, June 26th once we learn of the new guidelines we will be sending out updated information for the Illinois camps.

All facilities and staff will adhere to recommended local as well as CDC guidelines to keep the camp environment as safe as possible. Our staff is working directly with the hosting facilities to confirm the specific guidelines for each facility. We will be sending updated information for each camp to all participants to confirm specific details and updated instructions and guidelines for all locations and facilities. Please stay safe and know we are looking forward to a great 2020 camp season.

Guidelines

We will be using the "Group of 10" guidelines in the following manner

- There will be 10 or fewer players on a court during each session.
- Players will stay on the same court for the entire camp session.
- We have set up 6 different entrances, and campers will be assigned a door entrance to enter and exit the building.
- Each camper will enter the facility through their designated entrance, go through their camp session, and then leave the facility through a specified exit before the next session of players enters the building.
- One side of the Mezzanine will be open for **CAMPERS ONLY** to eat their lunch or dinner in between camp sessions.
- The deli is located upstairs on the mezzanine and will be open for lunch (11:30 am - 1 pm) and dinner (3:30 pm - 5:00 pm). We will be selling pizza, turkey, and ham subway sandwiches.
- The main parking lot and driveway around the Great Lakes Center will be closed and gated so there will be no gatherings near the facility as campers are entering or leaving.
- All parking and pick-up will be across the street in the large parking area to keep a safe distance between those arriving and leaving the building. **Please do not drop off your son or daughter on the street.**

- Parents will not be able to watch the camp sessions, but we will have a sitting area marked off outside for you to wait if you would like.
- Staff will be in front of the GLC and Youth Academy following each session to assist campers in crossing the street to the large parking lot.
- If campers are assigned to train in the main gym, they will use the main gym restrooms to ensure no one is moving between the two gyms.
- If they are assigned to train in the Youth Academy, they will use the YA restrooms to ensure no one is moving between the two gyms.
- We will have all entry and exit doors open as campers enter and exit, so no one has to touch a door to enter or leave the building.
- Balls will be cleaned after each session with a defogger and disinfectant specifically made to kill COVID-19.
- Courts will be washed with disinfectant at the end of each night.
- Restrooms, doors in and out of the building, and the concrete area will be cleaned by our cleaning service every night
- Campers must bring their water and hand sanitizer (all drinking fountains and vending machines will be turned off).

IMPORTANT

- If you have a fever, cough, or are not feeling well, please DO NOT attend practice! (This goes for camp coaches as well).
- Campers are allowed to wear a mask if you feel it is necessary for your child to participate in the camp.
- Please wash your hands or use hand sanitizer before entering the gym or after using the restroom.
